

WHAT IS CLAIMED IS:

1. A pharmaceutical composition comprising: lorazepam, diphenhydramine, promethazine, and metoclopramide.
5
2. The pharmaceutical composition according to claim 1 further comprising a pharmaceutically acceptable carrier.
3. The pharmaceutical composition according to claim 2 wherein said pharmaceutically acceptable carrier is selected from the group consisting of corn starch, gelatin, lactose, acacia, sucrose, microcrystalline cellulose, kaolin, mannitol, dicalcium phosphate, calcium carbonate, sodium chloride, or alginic acid.
10
4. The pharmaceutical composition according to claim 2 further comprising disintegrators selected from the group consisting of microcrystalline cellulose, corn starch, sodium starch glycolate, and alginic acid.
15
5. The pharmaceutical composition according to claim 2 further comprising tablet binders selected from the group consisting of acacia, methylcellulose, sodium carboxymethylcellulose, polyvinylpyrrolidone, hydroxypropyl methylcellulose, sucrose, starch, and ethylcellulose.
20
6. The pharmaceutical composition according to claim 2 further comprising lubricants selected from the group consisting of magnesium stearates, stearic acid, silicone fluid, talc, waxes, oils, and colloidal silica.
25
7. The pharmaceutical composition according to claim 1 wherein said pharmaceutical composition is compounded in a form selected from the group consisting of tablets,

capsules, powders, liquids, tonics, suppositories, transdermal devices, injectables, and inhalants.

- 5 8. A method of treating or inhibiting emesis in a patient comprising administering to said patient an anti-emetic effective amount of a pharmaceutical composition according to any one of claims 1 to 7.
- 10 9. A pharmaceutical composition comprising: an broad-spectrum anti-emetic composition at least one antihistamine, at least anti-dopaminergic, and at least one anti-anxiety agent.
- 15 10. A pharmaceutical composition comprising: a broad-spectrum anti-emetic composition comprising at least one benzodiazepine, at least one phenothiazine, at least one diphenhydramine, and at least one metoclopramide.
- 20 11. A pharmaceutical composition comprising: The pharmaceutical compositions according to claim 9 or 10 further comprising a pharmaceutically acceptable carrier.
12. The pharmaceutical compositions according to claim 11 wherein said pharmaceutically acceptable carrier is selected from the group consisting of corn starch, gelatin, lactose, acacia, sucrose, microcrystalline cellulose, kaolin, mannitol, dicalcium phosphate, calcium carbonate, sodium chloride, or alginic acid.
